SUMMARY

To leverage my skills in web development and contribute to creating innovative, user-friendly applications while continuously enhancing my expertise in **Artificial Intelligence and Machine Learning**. I am eager to apply my skills to the real world that push the boundaries of what is possible in the world of development.

EDUCATION

St. Francis College <i>10th Percentage- 82.6</i>	Hazratganj, Lucknow <i>Year 2019</i>
City Montessorii School <i>12th Percentage- 89.5</i>	Mahanagar, Lucknow <i>Year 2021</i>
University of Petroleum and Energy Studies <i>B-Tech Computer Science and Engineering with specialization in AIML</i>	Bidholi, Dehradun <i>2022 – 2026</i>

EXPERIENCE

Medical Imaging <i>Lenek Technologies Pvt. Ltd</i> - Designed an AI Bone Fracture Detection model as a solo project - Successfully evaluated the training, validation and testing set of the model	June 2025 – July 2025 <i>Kanpur, India</i>
AI for Clinical Trail Matching <i>IBM Pvt. Ltd</i> - Developed a Django-based web application using Google Gemini 1.5 Pro API to process free-text patient descriptions - Successfully matched patient descriptions with relevant Clinical Trials with thier csv	June 2025 – July 2025 <i>Dehradun, India</i>

PROJECTS

Lane Detection Web Layout <i>C, Android Studio, VSCode</i> - Developed a basic web page layout for lane detection of vehicles for Challan generation - If any vehicle has changed its lane, then it captures the particular frame and automates the fine accordingly - Implemented OpenCV for better functioning	August 2024 – December 2024
Smart India Hackathon Project <i>Node.js, TypeScript, React, Tailwind CSS</i> - Developed a Panchakarma Therapy Scheduling System as the frontend - Designed a smart therapy scheduling system with digital patient records, automated reminders, real-time progress tracking, and integrated feedback - Uses existing, proven healthcare IT tools(cloud, notifications, secure databases)	August 2025 – December 2025
Domestic Ease <i>React, Node.js, Express, MongoDB, JSON Web Token</i> - Developed a Home Care Matching Platform to make home chores more accessible by simplifying the process of booking Helper appointments - The app integrates online payment gateways (Stripe and Razorpay) to facilitate seamless and secure payments - Domestic EASE provides an efficient, user-friendly experience for both user and Helper providers	Jan 2025 – May 2025

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL, JavaScript, HTML/CSS
Softwares: Linux, Android Studio, PyCharm, OpenCV, DSA
Frameworks: React, Node.js
Developer Tools: Git, Google Cloud Platform, VS Code, PyCharm
Libraries: pandas, NumPy, Matplotlib
